

NEWS RELEASE

Intercept Energy Appoints New President/COO, Two Directors

VANCOUVER, BRITISH COLUMBIA – May 8, 2015 - Intercept Energy Services Inc. ("Intercept") (TSX Venture: IES, OTCBB: IESCF) today reported it has appointed Neil McLennan and Keith Morlock to its Board of Directors. Mr. Morlock also has been named President and COO of Intercept by the Board of Directors.

Earlier this year, Morlock stepped down from his position as Intercept president and CEO to focus on the growth of 640energy. "With the resignation of Intercept's CEO and Keith's excellent leadership for both Intercept and 640energy, it is a natural progression that Keith would resume the president and COO roles for the combined companies following the 640energy acquisition," stated lead Intercept Director Herbert Towing. "We welcome Keith and Neil to the board and look forward to their continued work with the us to help Intercept realize its full potential in the oil field services arena."

Mr. Morlock is the president of 640energy, LLC, which Intercept acquired in April 2015. His work in the industry established 640energy as a leading oil field services firm serving the Bakken Shale in North Dakota, Utah and other areas in North America and opened the door for Intercept's entry into North Dakota and the U.S. Previously, he was in executive management for public and private oil field services companies where he oversaw one firm's turnaround from a loss to a net profit of more than \$2 million within one year and secured contracts with major oil and gas OEMs and production companies.

Mr. McLennan has over 40 years of business and management experience and is the Founder of Wesclean Equipment and Cleaning Supplies Ltd. He serves as an Officer and Director of Weslease of Canada Ltd., Weslease Income Growth Fund Limited Partnership Fund, TRI Communication Solutions, Inc. and Blue Steel Chemicals Inc. Mr. McLennan also serves as a Senator of Junior Chamber of Commerce. He has previously served as the Chairman, CEO, CFO and President of QWIP Systems Inc. (formerly Rainbow Group of Companies Inc.) and has served as a Director of Redwood Resource Corp.

The Company's disclosure documents can be found on the SEDAR website at www.sedar.com.
