## Global Green Matrix Announces Acquisition of Intercept Rentals

**Global Green Matrix Corp. (“Global Green” or the “Company”) – TSX Venture: GGX; OTCBB: GGXCF; Berlin: AOLGDN; Frankfurt: POZ** - announced today that it has acquired all of the issued and outstanding shares of 1503826 Alberta Ltd., carrying on business as “Intercept Rentals”, from arm’s length third parties pursuant to a share purchase agreement, subject to TSX Venture Exchange final approval. The purchase price of \$1,440,000 was satisfied by the issuance of 12 million common shares of Global Green at a deemed price of \$0.12 per share. As required by the purchase agreement, the Global Green common shares will be held in escrow pursuant to the terms of a voluntary share escrow agreement and released, as to 1/3 of such amount, on the 4, 8 and 12 month anniversaries of the closing date. In addition, Global Green has granted to the former shareholders of Intercept Royalty, or it's nominee, a 10 per cent royalty on the gross revenues from the operation of the frac water heating technology for a period of 10 years, at which time it expires.

Randy Hayward, President and CEO of Global Green stated “With the acquisition of Intercept Rentals, Global Green now has ownership of an established revenue producing oilfield equipment rental company. Global Green also has acquired exclusive rights to the use and marketing of an innovative, highly efficient water heating system used primarily for the heating of water in the fracking process. Another benefit to Global Green is having access to an established customer base of major oil and gas companies that will significantly enhance our ability to market our other technologies; the DryVac and PowerMaster.”

**About Intercept Rentals** ([www.interceptrentals.com](http://www.interceptrentals.com) and [www.energyheatingllc.com](http://www.energyheatingllc.com))

Intercept Rentals provides equipment to support the oil industry with products that focus on efficiency as well as safety for the workers. The latest addition to Intercept is a Frac Water Heating System which is safe to operate, safe to the well site infrastructure, and safe to the environment. The units not only burn the fuel cleanly and completely but deliver almost all of the heat to the water being heated making our system the safest and most environmentally friendly heating unit available. For our customers this means increased work efficiency, decreased service costs and a healthier environment.
